Märta Ballardini

EDUCATION

Medieinstitutet, Stockholm — *Vocational University*

SEPTEMBER 2020 - MAY 2022

Studying the Front End Developer programme. The skills I'm learning are:

- ★ **Languages**: HTML5, CSS3, Vanilla JavaScript
- ★ **Design and workflow**: UI/UX, Scrum, Git/Github
- ★ **Frameworks and libraries**: React, Angular, NodeJS, jQuery

Thorén Innovation School, Stockholm — *High School*

AUGUST 2016 - JUNE 2019

A High School diploma/upper secondary diploma in information and media technology. Learned basic programming in java and database work in MySql.

EXPERIENCE

Alster, Stockholm — *Front end developer*

MAY 2022 – NOW

Working with making front end web applications. Using frameworks like React and Next together with typescript. Gotten the opportunity as front end lead and process manager in projects.

**Stretch Evolve,** Stockholm — *Internship*

OCTOBER 2021 – DECEMBER 2021

Worked with making front end applications towards the ERP SAP. Made a prototype in Neptune Application Designer for a goods receipt app during my internship.

The Swedish Internet Foundation, Stockholm — *Internship*

JANUARY 2020 – MAY 2020

A paid internship, where I learned python and used python to make graphs and data visualization of DNS-data. I learned to parse through large objects of json data. Made for the DNS team at The Swedish Internet Foundation.
