

# Märta Ballardini

## EXPERIENCE

### Alster, Stockholm – *Front end developer*

MAY 2022 – NOW

- ★ **Developing frontend web applications** using React and Next.js, consistently with TypeScript.
- ★ **Take a leading role** in driving my project forward, helping with technical decisions and agile ceremonies.
- ★ **Manage daily communication with clients**, building strong relationships and ensuring alignment between technical work and client expectations

### Stretch Evolve, Stockholm – *Internship*

OCTOBER 2021 – DECEMBER 2021

**Developed frontend applications** integrated with the SAP ERP system during internship at Stretch Evolve. Created a prototype for a goods receipt app using Neptune Application Designer.

### The Swedish Internet Foundation, Stockholm – *Internship*

JANUARY 2020 – MAY 2020

**Used Python to build data visualizations** of DNS data, parsing large JSON datasets to support internal insights for the DNS team.

## EDUCATION

### Medieinstitutet, Stockholm – *Vocational University*

SEPTEMBER 2020 – MAY 2022

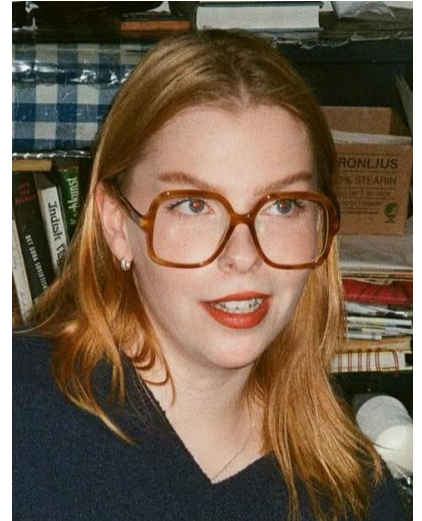

Studying the Front End Developer programme. The skills I learned were:

- ★ **Languages:** HTML5, CSS3, Vanilla JavaScript
- ★ **Design and workflow:** UI/UX, Scrum, Git/Github
- ★ **Frameworks and libraries:** React, Angular, NodeJS, jQuery

### Thorén Innovation School, Stockholm – *High School*

AUGUST 2016 – JUNE 2019

**A High School diploma/upper secondary diploma** in information and media technology. Learned basic programming in java and database work in MySQL.
